

TRAN PHAN HAI BANG

Software Engineer | Frontend Developer

📞 (+84) 355 511 436 ✉️ tphbang.dev@gmail.com 🔗 linkedin.com/in/tphbang 🌐 github.com/haibang1010

Education

University of Information Technology (UIT) - VNU-HCM

2026 (Expected)

Bachelor of Software Engineering

- **GPA:** 8.69/10.0
- **Graduation Thesis:** "Building a Charity NFT Marketplace using Account Abstraction (ERC-4337) and Gasless Transactions".

Experience

Ky Luc Company

Nov 2024 – Feb 2025

Business Analyst Intern

- Analyzed business requirements and designed system architecture to facilitate the transition from offline processes to an online web-based platform.
- Created comprehensive System Requirement Specification (SRS) documents, Activity Diagrams, and Sequence Diagrams to support the development team.
- Collaborated closely with the Web Development team to ensure the final product met client requirements and business goals.

Teky Academy

Sep 2024 – Feb 2026

STEM Instructor / Coding Mentor

- Instructed and mentored students in programming fundamentals using Python, Web Development (HTML/CSS/JS, Django), Games (Unity, Tynker) and Robotics.
- Translated complex technical concepts into easy-to-understand lessons, improving both communication and presentation skills.
- Managed classroom activities and tracked student progress, ensuring a high quality of learning experience.

Projects

Charity NFT Marketplace (Thesis) 🌐 | NextJS, Solidity, ERC-4337, ERC-721

Oct 2025 – Jan 2026

- Developed a decentralized NFT fundraising platform utilizing Account Abstraction to eliminate Private Key management and Gas fees for Web2 users.
- Implemented ERC-4337 architecture (Bundlers, Paymasters) and Web3Auth (Social Login/MPC) to enable 2-step onboarding via Google/Facebook.
- Built a Hybrid Indexer to sync on-chain data to PostgreSQL for real-time querying, and wrote ERC-721 contracts with automated revenue splitting.

Good Things 🍷 | MERN Stack

Jul 2025 – Sep 2025

- Engineered a full-stack social network mirroring Facebook's core features, including interactive News Feed, Post creation, Likes, and Comments.
- Optimized Search functionality using debounce techniques and designed complex database schemas for User Profiles and Relationships.

ChatChit - Social Media 🌐 | NextJS, ASP.NET Core 6, Docker

Nov 2023 – Jan 2024

- Built a full-featured social media app with messaging, video calls, and posts.
- Established project architecture, configured API layers, and designed responsive UI using TailwindCSS/Shadcn.
- Integrated WebSocket for real-time messaging/notifications and used Docker for database management.

Technical Skills

Languages: JavaScript/TypeScript, Solidity, HTML, CSS

Frontend: ReactJS, NextJS, VueJS, TailwindCSS, Ant Design, Shadcn/UI

Backend & DB: ASP.NET Core, NodeJS (Express), PostgreSQL, MongoDB, SQL Server, MySQL

Blockchain: ERC-4337, ERC-721, Smart Contracts (Solidity), Hardhat, Ethers.js, Web3Auth, IPFS

Tools: Git/GitHub, Postman, Figma, Mermaid
